RENTAL DESK

OUR ADVANTAGE

Built for site speed, fleet depth and accountability

Professional Supplier Network

Pre-qualified partners across the Emirates giving you depth of fleet on short notice.

Competitive Prices

Direct-source pricing with transparent daily, weekly and monthly structures.

Fast Delivery

Mobilisation in as little as four hours within Abu Dhabi and Dubai.

24/7 Support

A live rental desk for breakdowns, extensions and emergency dispatch.

Reliable Equipment

Serviced, inspected and third-party certified machines only.

Flexible Rental Terms

Scale units up or down as your programme changes — no rigid lock-ins.

Temporary power, dewatering and site utilities — serviced, fuelled and delivered ready to run.

Generators

Diesel Pumps

Air Compressors

Lighting Towers

RENTAL PROCESS

From enquiry to demobilisation in four steps

01 Send your requirement

Share equipment type, quantity, duration and site location — by form, phone or WhatsApp.

02 Receive quotation

A detailed rate breakdown with availability, mobilisation cost and terms, typically within the hour.

03 Equipment delivered

We schedule transport, permits and offloading so the machine is working on arrival.

04 Project completed

Extend, swap or demobilise on your call, with servicing handled throughout.

CLIENT FEEDBACK

"Peakfront mobilised three excavators and a low bed to our Al Ain site inside a day. Their coordination kept our earthworks programme on schedule."

Rashid Al Mansoori

Project Manager, Infrastructure Contractor

"We needed staff buses on short notice for a 400-worker camp move. Peakfront had coaster buses on site the next morning, drivers included."

Fatima Al Suwaidi

Operations Lead, Facilities Management

"Our dewatering pump failed at 11pm mid-pour. Peakfront had a replacement unit running by 2am. That's the kind of support that keeps us calling them first."

Ahmed Al Hashimi

Construction Manager, Government Projects
